# Tempex Cold Protection Standards

	<b>DIN EN 342</b>	Protective clothing – Ensembles and garments for protection against cold	<b>DIN EN 388</b>	Protective gloves against mechanical risks
	<b>DIN EN 511</b>	Protective gloves against cold	<b>DIN EN ISO 20345</b>	Personal protective equipment – Safety footwear
			<b>DIN EN 397</b>	Industrial safety helmets

# Tempex Cold Protection Symbols

	<b>Tempex Chillroom</b>	Clothing for work in moderate cold
	<b>Tempex ColdStore</b>	Clothing for movement-intensive activities at temperatures down to -49°C
	<b>Tempex ColdStorePlus</b>	Clothing for low-movement activities at temperatures down to -49°C

# Wash Symbols

	<b>Gentle wash cycle</b>		<b>Dryer</b>
	<b>Do not bleach</b>		<b>Dry clean</b>
	<b>Do not iron</b>		

- When it is new, the clothing is outfitted with water-repellent fluorocarbon waterproofing. Waterproofing should be reapplied after the clothing is washed or cleaned.
- For home washing, we recommend using spray waterproofing after drying
- Please do not use any fabric softener

# Cleaning and Care Instructions

**Comfort collection, Classic collection, Hygiene collection, Contour collection**

Cold protection clothing from Tempex is made of high-quality materials and always utilizes state-of-the-art technology. In order for you to be able to take advantage of your protective equipment for as long as possible, it is important to keep some wear and care instructions in mind.

- Please hang the clothing up to dry in a sufficiently heated and well-ventilated room after each use
- Avoid pressing the cold storage suits together during storage – e.g. in narrow steel lockers
- Never hang or lay the clothing over hot heat sources
- They should never be exposed to temperatures above +40°C to +50°C
- We absolutely recommend regular, professional cleaning or washing according to the instructions

For further questions regarding caring for your Tempex protective equipment, we would be glad to help you by phone.

If a cold protection suit is selected from this table for a specific workplace, it must be ensured that the hand and foot coverings also has sufficiently high heat insulation for the ambient temperature that is present and that the face and head are properly protected. The specified values are achieved only if a jacket and pants from the same construction are worn.

\* Measured with underwear A. DIN V ENV 342: 1998-04.

\*\* Measured with underwear B. DIN EN 342: 2004-09.
